---

I am an aspiring Data Analyst based in Cape Town, South Africa. I am a student at the University of Cape Town studying towards a Bachelor of Commerce with a major in Economics and Statistics, and I specialize in data analytics. My experience includes working with a multitude of software and databases, such as R and SQL, to create meaningful insights. I have a keen interest in using data to make informed decisions and create solutions that are tailored to the needs of my clients. I'm passionate about helping businesses unlock the potential of their data and helping them make more informed decisions.
